

Robby Bubble, Berry

Multi-fruit drink, sparkling
Fruit content: 20%

Available bottle sizes: 0,75 l

Production method:

Robby Bubble is a high-quality, multi-fruit drink that combines strawberry, elderberry, grape, raspberry, blackberry and blueberry flavours. The individual ingredients are mixed, stabilised and carbonated. This all takes place in a very gentle process, strictly in accordance to a special recipe.

Origin:

The juice portion, made from juice concentrate, of Robby Bubble Berry is made in quality-controlled and approved plants. Only selected quality varieties are suitable for this juice production. We work with reputable and experienced raw material suppliers to maintain this high standard. Quality and food safety are regularly checked and confirmed by external auditors in compliance with the applicable standards and norms of the food industry.

Characteristics:

The sparkling, fresh taste of Robby Bubble Berry is enhanced by fruity ripe berries.

Culinary recommendation:

Robby Bubble Berry, as all its other varieties, is a classic fruit-flavoured drink for children. It is an excellent and highly popular choice for children's parties and celebrations of all kinds. For a good reason: children love the taste and the tingling sensation of Robby Bubble.
